 You've already passed the point of no return.

SHTF Prepping, what does it mean? It's about preparing for the possibility of a SHTF (Shit Hits The Fan) scenario. This could include anything from a natural disaster like a hurricane or earthquake to a more dire event like a war or pandemic. The goal is to have enough supplies and resources to survive and thrive in the aftermath of such an event.

"prepare for the rainy day"
